

Pointe aux Biches Hotel

"The Crusoe Escape for the Whole Family"

This 3 star hotel is located in the North West of Mauritius, right at the beach of Pointe aux Piments and exudes a true island holiday feeling. Newly conceived as a family hotel and reopened in November 2006, the 85 airconditioned rooms of the Pointe aux Biches Hotel are all sea facing, each with its own balcony or terrace. 44 of them are specifically equipped for families and comprise an additional room, whereas the others host 2 adults and a baby. One room is additionally equipped for handicapped guests.

The rooms are furnished in comfortable, easy and rustic style, with a decoration of natural materials such as cane and wood. Shades of beige and brown prevail, representing a nice contrast with the lively colours of the island and the ocean.

The restaurant offers great views over the beach and the coral reef combined with spicy and fragrant buffet-style island cuisine. It is open for breakfast, lunch and dinner.

On a deck overlooking the lagoon, the bar serves cool drinks between 10am and midnight.

The entire style of the hotel is an intermingling of the buildings with their natural environment; thus airy and welcoming, in real tropical island fashion. It's like being Robinson Crusoe without the shipwreck. The long beach, one of the nicest in Mauritius, invites to all kinds of water activities or long barefoot beachwalks.

While the parents take their due time-out, their children are well looked after in the Timomo Kids Club. For children under 4, a baby sitting service is available for a fee.
